

National Coach Accreditation Framework

Netball Australia's National Coach Accreditation Framework (download) aims to assist coaches to successfully move through the coach education pathway.

The coaching framework is a six-tier progression with each stage being accredited:

Note there is no practical assessment for the Foundation Coach Course which is fully online. The new blended learning (online and face to face) Development Coach Accreditation Course includes a self-assessment process for the practical coach component during the face to face workshop. The various practical Assessment Forms are included below and for the Intermediate, Advanced and Elite courses, will be completed by the Coach Developers who facilitate and/or assess for each course.

First step – Online Foundation Coach Accreditation Course

About the course

The online Foundation Coach Accreditation Course is targeted primarily at beginner coaches, teachers, parents and Suncorp NetSetGO coaches and outlines introductory coaching information and basic netball techniques. The Course is the first step in the national coaching accreditation framework and is an important step along the knowledge pathway for a coach.

Modules:

1. The role of the coach
2. Planning
3. Teaching netball skills
4. The coach in action

The fully online Foundation course will take coaches on average 3-4 hours to complete. The great thing about the course being online is that you can learn at your own pace at a time and place that suits and you can access the course all year round, any time of the day or night.

Anyone from Australia and overseas can access the online courses through the [MyNetball Learning portal](#).
